

ARCHITECTURAL OUTLETS

THE *ORIGINAL* HIGH VELOCITY
CENTRAL AIR CONDITIONING SYSTEM

SpacePak Architectural Outlets Blend with Any Décor

New SpacePak outlets and covers – designed to suit the most discriminating decorating tastes. From the classic look of finished aluminum and brass, to Victorian elegance, to natural wood grain, these small, low-profile components blend seamlessly into any décor. The standard white terminator plate can be painted or wallpapered to match existing room interiors. However, if more eye appeal is desired, SpacePak offers a wide selection to choose from. If wood is the element you're looking for, a variety of woods such as cherry, walnut, pine and others are also available as a special order.

A Classical Look Metal Outlets – 5" Dia.

(replace our standard white plastic terminators)

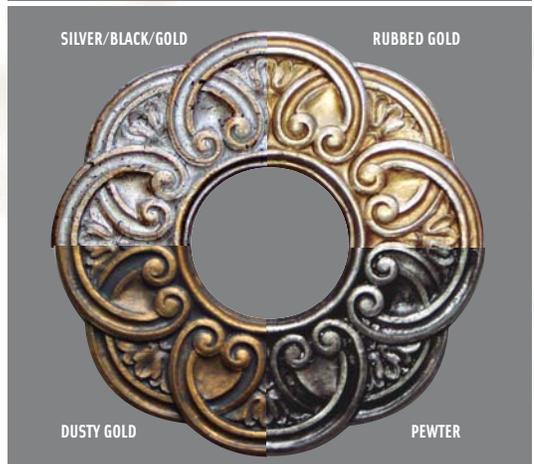

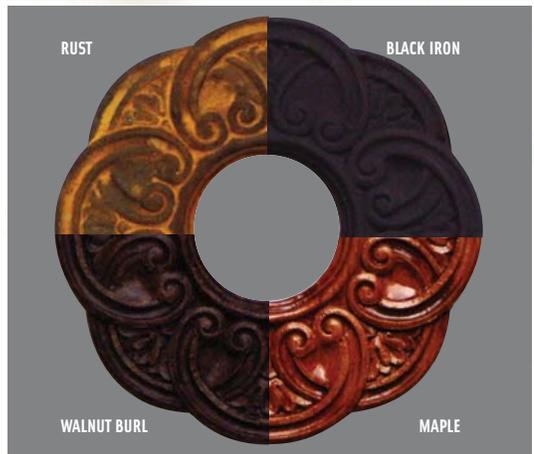

A Victorian Touch Decorative Covers – 6-5/8" Dia. (install over standard white plastic terminators)

The SpacePak Difference

SpacePak is a unique and versatile solution to your air conditioning needs. Suitable for residential and commercial properties, SpacePak is the flexible choice for central air. Each SpacePak system is installed by knowledgeable, factory trained contractors to ensure the job is done right. Find out the difference a SpacePak system can make. Visit www.spacepak.com for more information.

What Makes SpacePak Different from Conventional Air Conditioning?

- Small, 2" flexible tubing eliminates large, bulky ductwork
- Small inconspicuous outlets to match any décor
- Less humid by removing 30% more moisture
- Ultra-quiet cooling and heating
- Draftless for even comfort
- Quick and easy – installs in days
